Overwhelming feedback on the 1st All-round Self Advancement Seminar Series

Our first grooming seminar on 9 August was a complete success with around 40 alumni attending the seminar. Experts from "Fanny Lee Image Consultancy" were invited to share their knowledge on how to present a unique personal and professional appearance for both males and females. They also presented the latest news on skin care. All participants enjoyed the fruitful afternoon. We are going to invite more experts to share other self advancement tips to you. Please stay close to our announcement!
